

## **ENVIRONMENT POLICY**

The aim of our Environment Policy is to protect and ensure the sustainability of our environment by complying with all environmental laws and regulations, controlling and reducing the environmental impacts of our activities, continuously improving our environmental performance, and leaving a livable and clean environment for future generations.

To achieve this aim, we commit to:

- Ensure continuous development and improvement by complying with all legal regulations related to environmental aspects,
- Create environmental awareness that includes all our stakeholders and ensure the continuity of our environmental management system,
- Make improvements to prevent pollution and reduce our environmental impacts in line with the goals established for environmental sustainability, and conduct activities to raise awareness among our employees,
- Take measures to reduce the consumption of natural resources through sustainable waste management, complying with all relevant laws and decisions of the Local Environmental Board, and supporting environmental organizations in their activities,
- Avoiding activities that negatively impact high carbon emissions and taking measures to reduce carbon emissions.
